Built entirely with CAD/CAM technology

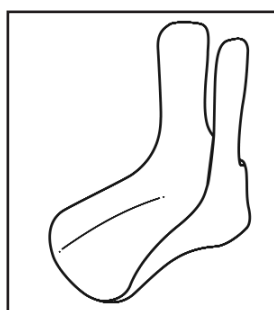

Brace yourself for the finest quality and affordable custom-molded brace to be manufactured using precise, proprietary state-of-the-art CAD/CAM technology – including any prescribed modifications. Niagara Brace – a Tru-Mold Shoe Company – offers three levels of frame support, five color options and your choice of closure method. Always a perfect fit. Priced for profitability and delivered to your door in about 10 working days.

- Calf leather shell
- Thermal molded polypropylene frame
- Glover leather lining
- Multiple closure options
- Padded collar
- Clean finished edges
- Multiple styles and heights
- All casts stored on CAD/CAM 3D computer system

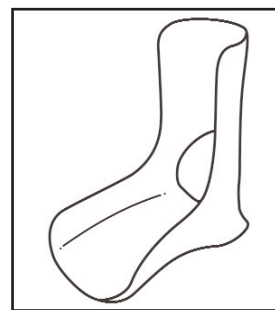

Recommended for ankle injuries, degenerative joint disease, posterior tibial dysfunction.
