- Thermal molded polypropylene frame
- Custom removable inserts
- Your choice of lining
- Your choice of style and height
- Choice of lace or Velcro closure
- Elongated opening and wide vent
- High toe box for ample toe room
- Optional toe filler for style and appearance
- All casts saved on CAD/CAM 3D computer system (No Charge)
- Free replacement STS socks

## ABOUT TRU-MOLD SHOES

FOR OVER 50 YEARS, Tru-Mold Shoes has built a reputation as an innovative world-leading manufacturer of custom molded shoes. Our expertise in making the finest custom molded footwear is rivaled only by our commitment to delivering outstanding professional and courteous service to our customers. People with diabetic ulcers, deformed toes, collapsed arches, digital amputations, bunions, calluses, charcot, hammertoes and other deformities

will find our custom molded footwear unbelievably supportive. Now, we've successfully applied a new capability to craft custom molded shoes with a built-in brace for patients with ankle injuries, degenerative joint disease, severe pronation and other biomechanical problems to further enhance functionality and improve patient acceptance and compliance.
